Subject: Diamond Alkali site

Hi Jen.

Thanks for your interest in our project and for attending our meeting yesterday. It's always nice to see new faces. This project really does encompass multiple projects at once so I'm glad you were able to directly get in touch with the Corps (and Lisa, specifically) as I think they'll be a good resource to you. Since you already know about the websites, the only other piece of advice I have is that you should sign up for the listserv, which you can do through either the ourpassaic.org or ournewarkbay.org websites (there's a tab that says "subscribe" at the bottom of the page). We do try to send out email updates whenever we hit a major milestone.

I hope the meeting was helpful to you.

Please feel free to email or call me at 212-637-4396 if you have any questions or need additional information.

Have a good day and good luck at school,
Elizabeth
